

Mental Health Services

Providing mental health support is key to fulfilling The Children's Aid Society's mission to address the physical and emotional well-being of children and families.

Trained teams of professionals help children and families cope with:

- The difficulties of living in economically disadvantaged communities
- Attention deficit hyperactivity disorder (ADHD)
- Serious emotional disturbance
- Abuse
- Depression

All services are provided in English and Spanish.

Services are provided in a respectful, caring environment by a culturally diverse staff of certified social workers, psychologists, and psychiatrists. Fees for services are charged on a sliding scale based on family income. Medicaid is accepted. No one is refused services because of their financial situation.

Children's Aid is licensed by the State of New York to provide health and mental services under Articles 31.

***Children's Aid Society's
Mission:***

To ensure the physical and emotional well-being of children and families, and to provide each child with the support and opportunities needed to become a happy, healthy and productive adult."

We welcome referrals from YOU!

Steps for Admission

1. The referring provider should choose a location best suited for the individual being referred.
2. The facility of choice should be contacted by the referring provider via telephone and the referring provider should provide pertinent information regarding the need for services.
3. Pre-screening admission sessions will be scheduled directly with the referred party by the assigned social worker.
